# KIATOKEN

Wallets would be created for the charities campaigns and people will provide our token from CEX and DEX exchanges and send it directly to that wallet to donate.

Finally, charities will cash the tokens through the exchanges and spend the cash value for the charity purposes.

KIATOKEN eliminates geographical borders. Everybody can participate in any charity campaign from all around the glob using our token to donate.

KIATOKEN will act like a handy tool for the charities and donation organizations to convey the charity events purposes.

Fast, Secured, time saver,  
Green, almost no  
transaction fee and much  
more features.

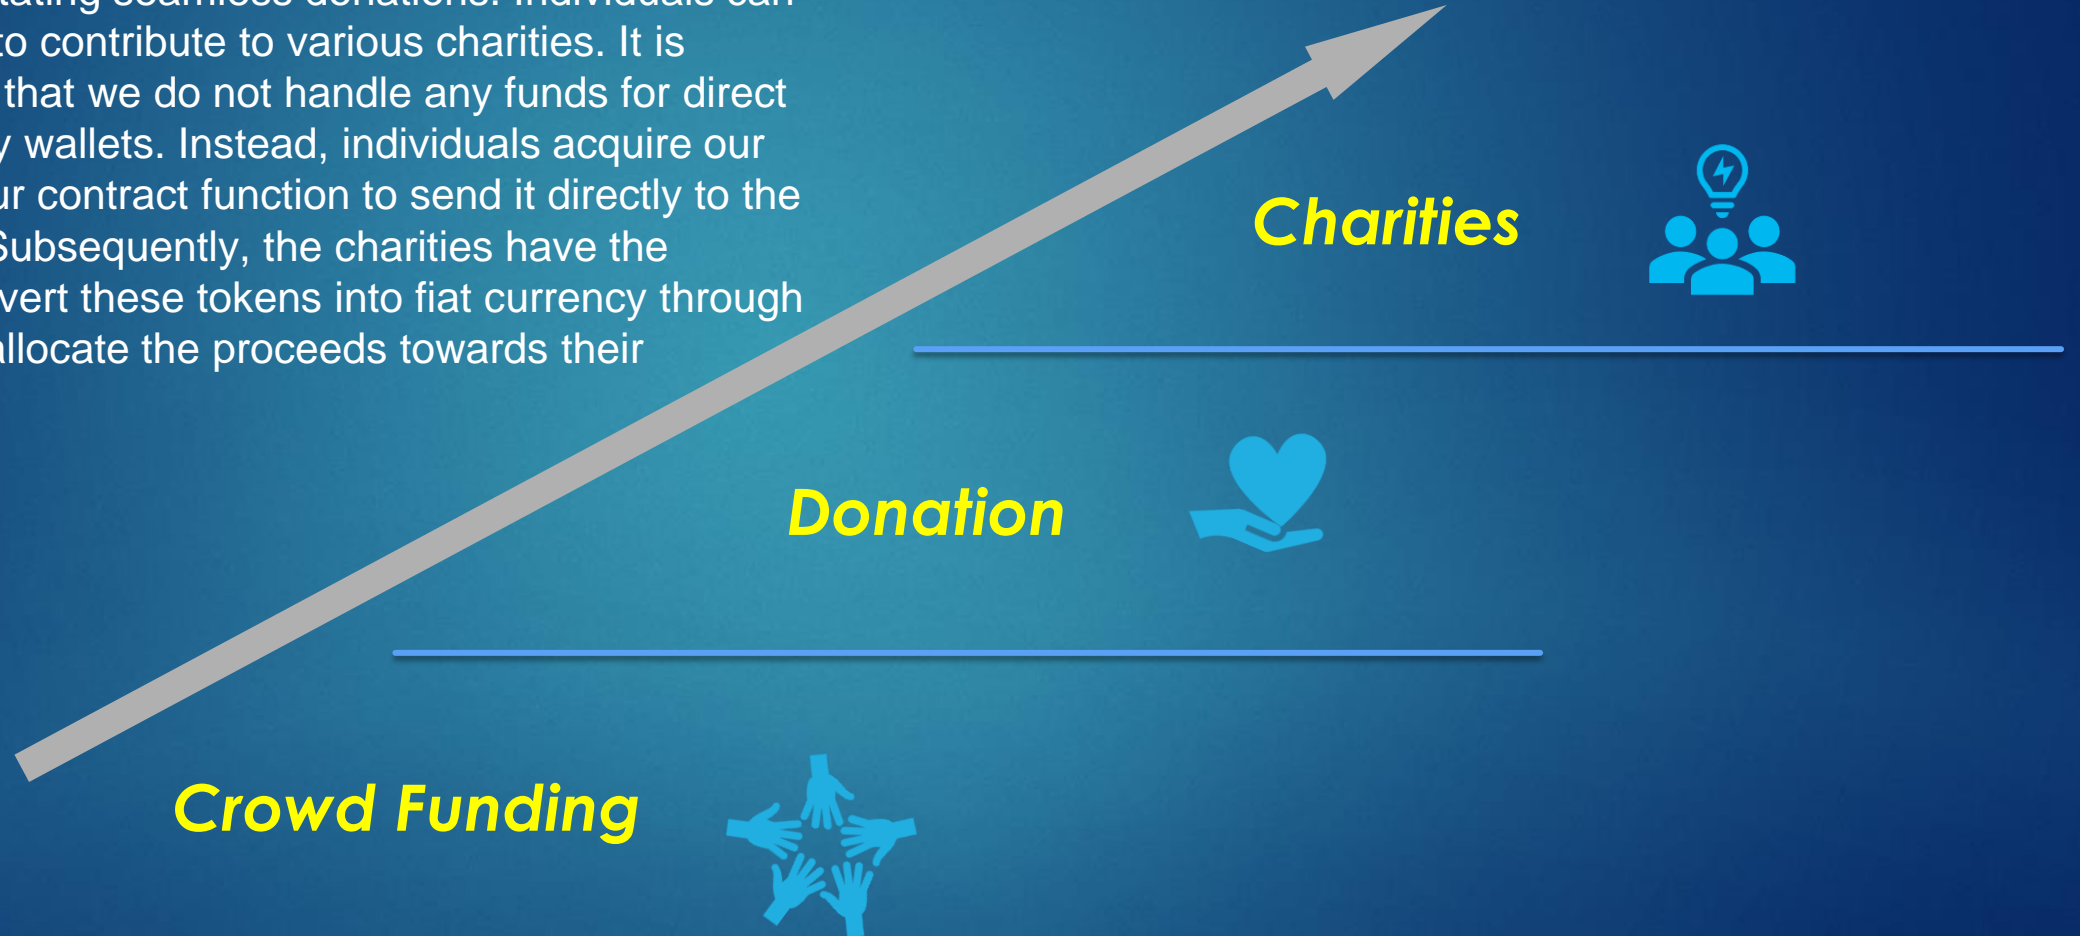

People will participate in  
charity campaigns,  
advertised by our website  
using our token. Charity  
organizations also can  
contribute in our website to  
cooperate.

KIATOKEN

KIATOKEN

This token serves as a payment method for charitable campaigns, facilitating seamless donations. Individuals can utilize our token to contribute to various charities. It is essential to note that we do not handle any funds for direct transfer to charity wallets. Instead, individuals acquire our token, utilizing our contract function to send it directly to the charity's wallet. Subsequently, the charities have the autonomy to convert these tokens into fiat currency through exchanges and allocate the proceeds towards their initiatives.
